PROFESSIONAL BACKGROUND

- Currently, I'm a Business and Technology Analyst actuating in a Telecom Company developing analytical and monitoring solutions.
- I've spent about 1 year on various implementations of Splunk. I'm hungry to learn new things every day and, surprisingly, Splunk is satisfying that need now. I train resources in Splunk in my organization and I also support accounts / projects with their use cases and proof of concepts.
- I also have experience in Web Development (HTML, CSS, JavaScript), Node, Python, Shell Scripting, GitHub.
- Graduated in System Analysis and Development from the Faculty of Technology of Americana – FATEC.
- Certified Professional Scrum Master, Certified Splunk Power User and Splunk Enterprise Security 5.0 course.
